Wilderness Collection Field Tent Assembly Instructions

Tent Pole A
(Angled Slot)
x2

Tent Pole B
(Circle Recess)
x2

Tent Pole C
(Top)
x1

Tent Pole D
(Ground/Bottom)
x2

PIECES INCLUDED

Decorative Bolt
x2

Barrell Nut
x2

Allen Key
x1

Easier when done with two people.

Step 1 Thread the two ground poles through the fabric slots at bottom of the tent.

Step 2 Select one pole A and one pole B for front of tent. Make sure the tent poles are top side up. Thread poles through available openings in front of tent. Pole A goes in the opening on the right and pole B on the left.

Step 3 Thread tent pole C through the opening along the top of the tent.

Step 4 Hold A in front of B and cross tent poles so that pole B fits into the angled slot on pole A. Fit end of pole C into the circle recess on pole B and hold all three firmly together.

Step 5 For ease of assembly, rotate tent pole C so that the barrel nut hole is facing up. Place barrel nut into the available barrel nut hole on the outside of pole C. Rotate the barrel nut so that the opening in the nut is aligned with the hole at the end of tent pole C. When properly aligned the slot in the outer face of the bolt will be parallel to the length of the pole.

Step 6 Still holding all three tent poles together. Thread the decorative bolt through the aligned holes in tent poles A, B and C. Screw to tighten.

Step 7 Repeat steps 1-6 for the rear end of the tent.

Step 8 To hide the barrel nuts, loosen the bolts at each end and rotate pole C so that the nuts are facing the floor. Screw to tighten.

Step 9 Direct the ends of tent pole D into the recessed holes at the bottoms of A and B. They don't need to lock in place.

Enjoy!

**ENTIRELY ORIGINAL.
DESIGN FOR
A SUSTAINABLE CULTURE.**

The Field Tent is part of the Wilderness Collection, a collaboration between Kalon Studios and Nico Nico. These beautiful, practical tools are inspired by traditional expedition tackle and the rugged intellectuals of America's early naturalist movement. Made from the classic, natural materials of wood, leather and canvas. All pieces in the collection are designed to open up a child's fantasy world and to set no boundaries on creativity. Pairs with the Backcountry Stool.
